Cookie Policy and Privacy Policy.Q: How to do conditional pagination in Angular? I have a list of items and I would like to display 10 items per page, but if the user navigates to the last page, I would like to go back to the first page without loading all items. I know I can do this using ng-if and ng-hide, but I'm not sure how to do this conditionally in the controller. Any ideas? A: You can't do it in the controller. You can do it in the directive though: .
