**Sofonesia Icon Extractor (2022)**

1. Clean the user temp folder 2. Check the temp folder and remove any old files (no user interaction required) 3. If there are no files in the temp folder, auto-shutdown the system (user interaction required) System Requirements: 1. Windows XP/Vista/7/8 2. Requires system tray (right-click the tray icon to configure the options) 3. A more detailed review of CleanTempShutdown can be found in the screenshot below: Download CleanTempShutdown at SourceForge.net published:24 Jul 2013 views:1082 Cleanup system files folder and take the burden off from system To clean system folder permanently, in case it is not cleaning itself, and save space, and speed up your system, and remove extra files of temporary or unnecessary files. Follow the instruction to take off all the unnecessary and temporary files from the system folder for fast speed and proper functioning of the system. Download the tutorial on how to delete all the temporary files from the system folder: Download the.exe file: In case if the link is not working. Here is the download link. Temporary files are created on a regular basis during software installations. Since they take up disk space, they should better be cleaned up after use. Otherwise, they will continue to slow down the PC, decreasing its performance. Fortunately, CleanTempShutdown allows you to quickly remove all the temporary files from the system, making the hard drive run at the optimal performance. More efficient Windows 10 booting The program, which is both free to use and very easy to use, has gained popularity and is often
