IFX Vista Sound Creator For Windows

The iFX Vista Sound Creator is a FREE Windows program which contains all the tools you need to make and edit sounds, such as an interface which contains a sound library and the ability to create sounds on the fly! So if you want to take that sound from Windows Vista, or make it better, you can, and there's no need to buy any other program! The Sound Creator is a program which contains all the tools you need to make and edit sounds. You will see a library of sound files, or you can even record your own voice and add it to the library, and then you can choose to make, change, or preview your sound. The program has a myriad of useful features, like the ability to zoom, apply effects, or make a fade in, fade out sound for your creations. The program is very easy to use, and even allows you to make and edit noises on the fly, without having to use the library of pre-made sounds. And there is also the ability to create your own sounds and make them your own, and then preview the results. Features: Zoom in and out to get a perfect view of any area Add, Edit, or remove sounds from your library Create or import sounds and save them in your library Preview, change, or make new sounds and make them your own! Apply Effects and a Fade in or Out to make the sounds more interesting What's New in v2.2.1: Added a work around to fix the issue with compiling v2.2.0.1 as it was compiled with VS 2010 Changed the Main Sound Window to have the same look as the main menu.
